## Provider Summary

**Core Consultants, LLC was founded in 2014 to provide construction services that focused on the goals of the client. With a single member, Will Schmidt, clients know who they are going to be working with throughout the construction process. A “one-on-one” environment truly does exist, and the result are projects that are completed on time and on budget.**

**Experience as a general contractor, subcontractor, owner’s representative and project manager provides a unique perspective and approach to the client for a given project. Construction estimating and realistic budget development begins the process along with identifying specific factors that, ultimately, will drive a construction schedule. Assembling bid packages, hiring of qualified contractors, assembling realistic construction schedules, identifying required inspections, and coordinating/monitoring construction activities all ultimately lead to a successful project.**

**Will Schmidt has performed general contracting on projects across the country.**
