

Dale Grant is a CPA, QuickBooks Certified ProAdvisor and Owner of Ashton Business Consulting, PLLC, an accounting firm that specializes in small business accounting, tax and advisory services. Dale's knowledge and experience with small businesses is varied as it has been developed over the course of two separate career paths. After graduating from Florida A&M University he spent his time as a sales representative servicing small business owners. During that time he gained an appreciation of how hardworking entrepreneurs are. What he began to understand was that most operators take on all of the company's responsibilities themselves and in order to grow they must

delegate out tasks. In 2010 after graduating from Keller Graduate School of Management with a Master's Degree in Accounting and Financial Management Dale earned his CPA. Over the course of the next 7 years he gained experience in financial reporting and audit, auditing mid-sized companies throughout the state of Michigan in industries that included financial institutions, insurance companies, non-profits, and manufacturers. During his time as an auditor he recognized that small businesses are an underserved community. In speaking with owners it was apparent that many owners wanted to work with a CPA but larger firms simply were not positioned to provide the services they needed. From that experience was born Ashton Business Consulting. The company began in 2015 by providing services to family and friends on nights and weekends. If you had a great idea he would write a business plan for you or if you needed financial statements Dale would prepare them. Now is the time for the next step by offering small business services full time. Ashton Business Consulting, PLLC is a full service accounting firm designed specifically to meet the needs of small business owners throughout Southeastern Michigan. We're proud to serve those hardworking entrepreneurs in this great region and proud to take part in this entrepreneurial renaissance.
